Specifications: Henry Chair and Barstool

Description: The Henry chair and barstool are styled to the classic "Library" design. Details such as the elegant, slightly fanned back with six slats and decorative brackets on the edge of the seat give this chair a timeless design. Upholstered seats as well as solid wood seats are available. The wood seats are sculpted at the factory to ensure a comfortable sitting position.

| Carton Volume for 1 stool | | |
| | 10 cubic feet | |

Note: The barstool is available in custom seat heights ranging from 24" (61 cm) to 30" (76 cm).

Standard kickplates are brass. Chrome kickplates are available at the same price.

Fabric for upholstered seats: COM (Customer's Own Material) fabric required (chair and barstool): .35 yd (.33 m)

Note: This is the estimated amount based on 54" (137 cm) wide material. The actual amount required may vary depending on special pattern matching and the width of the material.

Cushion Foam: High density foam on seat

Wood:
Species: 100% Solid European Beech Hardwood

Construction:
Joints: Mortise and tenon. Glued with high solids glue and reinforced with 18 gauge nails, corner blocks and low root woodscrews.

Stain Colors:
 A wide range of standard stain colors is available as well as custom color matching. (A surcharge will apply to custom colors.)

9-Step Finishing Process:

1. The bare wood of the assembled chair is thoroughly sanded using 100 grit paper.
2. One coat of stain is sprayed onto the entire chair – including the underside of the seat.
3. The stain is handwiped to ensure an even color and

maximum penetration into the wood.

4. The chair is inspected and any necessary adjustments made.
5. One coat of a catalyzed sealer is sprayed onto all wood parts to completely seal the wood – including the underside of the seat.
6. Once dry, the sealer is sanded using 280 grit paper.
7. A final sanding is done using Scotch Brite pads to remove any sanding marks.
8. A catalyzed lacquer is sprayed on. This lacquer is very durable and will stand up in a commercial environment.
9. A final inspection is performed prior to packaging to ensure a high level of quality control.

Note: Specifications are subject to change without notice.
